SCOPES
Daffodil International University Journal of Science and Technology is a peer-reviewed, international, and archival journal providing a publication medium for complete coverage addressing all topics of interest to academics, researchers, professionals, practitioners, educators, programmers, developers, managers, and executives in the field of Science and Technology. Its goal is to foster the advance of the state-of-the-art in this field. The journal solicits original, high quality, and unpublished papers, or extended versions of papers presented at conferences. Areas and scopes of this journal include, but are not limited to:

- Architectural Engineering
- Biological Sciences
- Biologically Inspired Computing
- Chemistry and Chemical Engineering
- Civil Engineering
- Communication and Information Technology
- Computer Science and Engineering
- Electrical and Electronic Engineering
- Environmental Science and Engineering
- Genetic Engineering
- Geology and Metallurgical Engineering
- Internet Security
- Industrial and Production Engineering
- Mathematics and Statistics
- Mechanical Engineering
- Naval Architecture
- Physics, Applied Physics and Electronics
- Software Engineering
- Technology Management
- Textile Engineering
- Urban and Regional Planning and Development
- Water Resource Engineering
Copyright and Reprint Permissions
This journal and the individual contributions contained in it are protected by the copyright of Daffodil International University. Photocopies of this journal in full or parts for personal or classroom usage may be allowed provided that copies are not made or distributed for profit or commercial advantage and the copies bear the full citation. Abstracting with credit is permitted. Specific permission of the publisher and payment of a fee are required for multiple or systemic copying, copying for advertising or promotional purposes, resale, republishing, posting on servers, redistributing to lists and all forms of delivery. Subscribers may reproduce table of contents or prepare lists of articles including abstracts for internal circulation within their institutions. Permission of the publisher is required for resale and distribution outside the institution. Permission of the publisher is required for all other derivative works, including compilations and translations.
